

Gamebirds Clothing - Press Release - April 2016

Gamebirds Clothing, the unique and personally designed Country Clothing brand was launched in September 2015 by Cindy Boundy and Sarah Wood.

Passionate about country life and pursuits, Gamebirds Clothing has designed a range of products that offer practicality, functionality and elegance to all women who enjoy country living.

Frustrated by the lack of practical yet feminine clothing, particularly for women who like to shoot, Cindy and Sarah, combined their expertise and industry knowledge into developing this exciting new country clothing collection.

Signature pieces, based on the names of specific game birds include: Skinny Pheasant Moleskin Trousers, Skinny Grouse Moleskin Breeks, Skinny Partridge Cord Trousers and unique to Gamebirds Clothing, and a market-first, the Skinny Woodcock Cord Breek - all available in a selection of rich and beautiful colourways.

The stunning, flattering and versatile collection also includes, the Widgeon Moleskin Waistcoat, and the original "Gamebirds Tweed" Ptarmigan Waistcoat and Quail Breeks.

The pieces lend themselves perfectly to all areas of country and sporting life from shooting, working or walking your dog, or simply enjoying the countryside, whatever the weather, all year round.

Complementing the existing ranges, Gamebirds Clothing will be launching a new range of Shooting Socks, Hats, and Scarves for Autumn / Winter 2016 and will be introducing a stunning new collection of fitted Tweed Coats and Jackets and a Tweed Velvet-lined Cape - all made in the UK, using only British fabrics.

Gamebirds Clothing: On the Peg, On the Lead, On the Land.
